Saint Paul West Side Juvenile Crimes of Violence
(homicide, rape, robbery, aggravated assault, and other assaults)
9/1/97 - 8/31/99

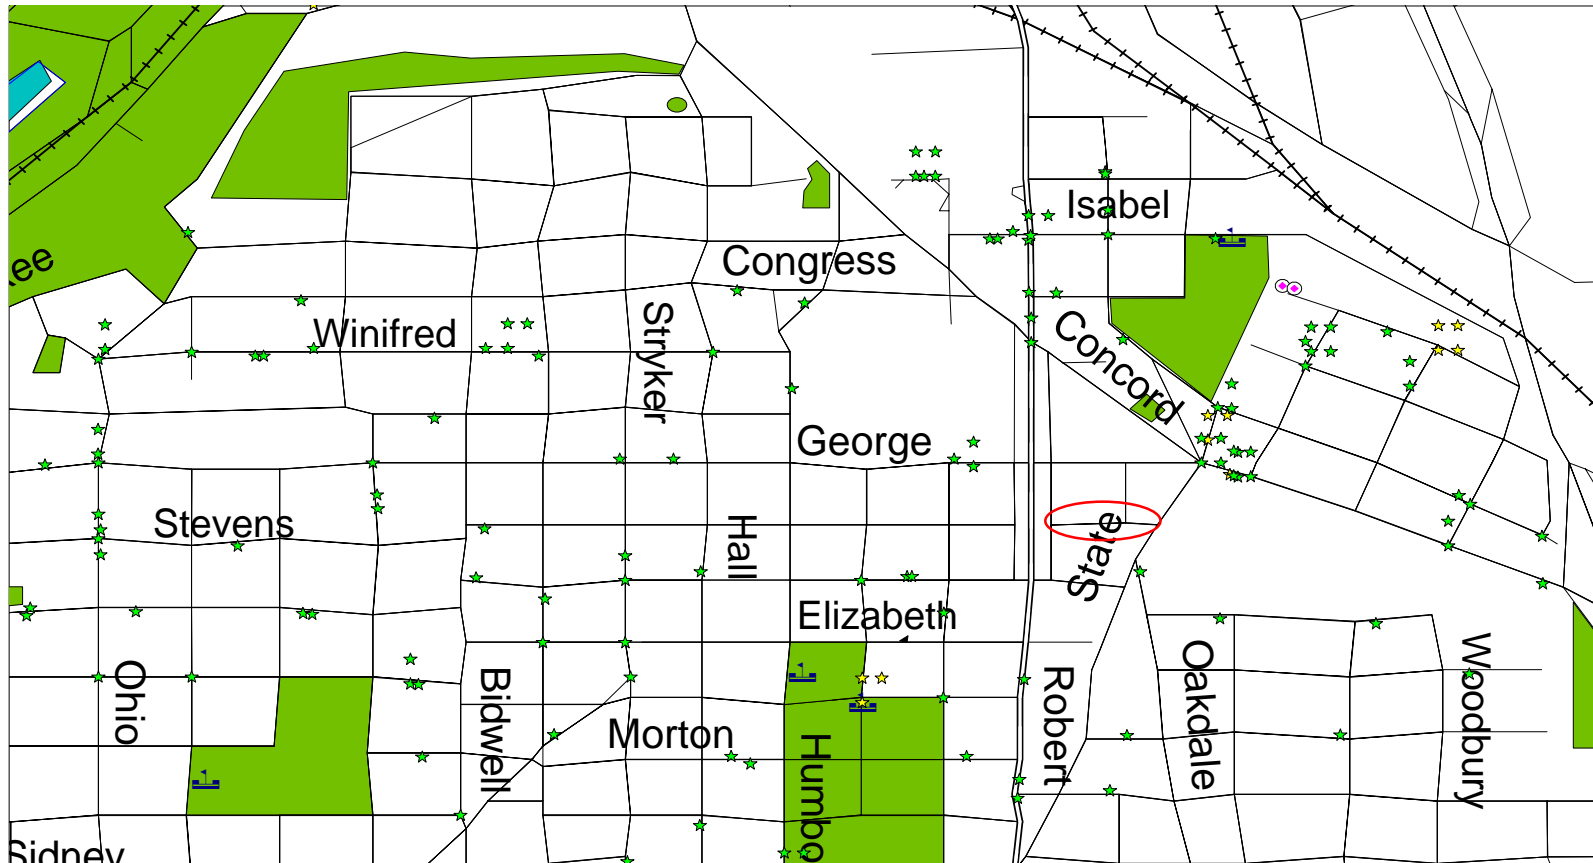

(SPPD, R&D, SZ -- Nov. 1999)

Prepared by Scott Zogg, 8/10/99

Officer Nassat,

The problem as documented in the Scan section does not bear a strong presence in the SPPD database. It may be the case that a real problem exists along this stretch and that complainants have not generated many CNs, or the nature of the problem may be such that it is not likely to show up in call/report data. A map of the area displaying 'Quality of Life' incidents (see attached list for included incident types) for July and the first few days of August shows no activity along the stretch of Stevens between Robert and State (circled in red):

Blue buildings are schools; stars and other symbols are Quality of Life incidents. Overlapping points dispersed 'around the clock'.
